1 Introduction

This document defines the *TDIF Annual Assessment* process and requirements to be met by an *Accredited Provider* to ensure the *Accredited Provider's Identity System* continues to meet the requirements of the *TDIF*. This includes the requirement for an *Accredited Provider* to complete an *Annual Assessment* by the anniversary of its initial accreditation date and provide the resulting *Annual Assessment Report* to the *DTA* for consideration. Failure by an *Accredited Provider* to complete the *Annual Assessment* in accordance with the *TDIF* is a breach of the *Accredited Provider's* obligations under the *TDIF* and may result in the termination of accreditation.

The intended audience for this document includes:

- *Accredited Providers.*
- *Applicants.*
- *Assessors.*
- *Relying Parties.*

1.1 Scope

The *TDIF Accreditation Process* includes four major activities as shown in Figure 1 below. The fourth accreditation activity, 'Maintain Accreditation' is the focus of this document. The three accreditation activities, 'Request Accreditation, Meet TDIF Requirements' and 'Complete Accreditation' are covered in *TDIF: 03 – Accreditation Process*.

Figure 1: TDIF Accreditation Process.

2 Maintain TDIF accreditation

To maintain *TDIF* accreditation, the *Accredited Provider* is required to undergo an *Annual Assessment* by suitably skilled, independent and experienced *Assessors*.

A full list of all documentation to be submitted to the DTA as evidence of the *Accredited Provider's* accreditation activities being met is in **Appendix B**.

2.1 Previous Functional Assessments

The *Accredited Provider* may have recently undergone assessments on its *Identity System* which cover similar requirements to those listed in the *TDIF*. The *Accredited Provider* may submit evidence of these assessments conducted in the previous 12 months and request the *DTA* consider it as a suitable substitute for an *Annual Assessment* requirement.

At its discretion, the *DTA* may accept prior assessments conducted on the *Accredited Provider's Identity System* as a substitute to an *Annual Assessment* requirement required by the *TDIF*. In such instances the *DTA* will advise the *Accredited Provider* in writing the adequacy of prior assessments relative to the degree to which they cover *TDIF* requirements. Where the *DTA* determine a prior assessment:

- Fully addresses an *Annual Assessment* requirement then no further action will be required by the *Accredited Provider* for that requirement.
- Partially addresses an *Annual Assessment* requirement then the *Accredited Provider* will need to undergo a partial *Annual Assessment* for the requirements it does not meet.
- Does not address an *Annual Assessment* requirement then the *Accredited Provider* will need to meet the requirement as listed in the *TDIF*.

The *Qualifying Attestation Letter* MUST, at a minimum, contain information that supports the *Accredited Provider's* claim that its operations remain in accordance with *TDIF* requirements.

In addition, the *Qualifying Attestation Letter* MUST be signed by the *Accredited Provider's* relevant *Accountable Authority* and include the name, role/position and contact details of the *Accountable Authority* that is asserting that the *Accredited Provider's Identity System* complies with *TDIF* requirements.

TDIF Req: ANNUAL-02-06-03; **Updated:** Jun-21; **Applicability:** A, C, I, X

The *Accredited Provider* MAY publish the *Qualifying Attestation Letter* onto its public dashboard or website.

2.7 TDIF Reaccreditation

Threat environments and business needs are dynamic. While regular accreditation activities are highly beneficial in maintaining the trust posture of the *Accredited Provider's Identity System*, other activities may necessitate a need for *TDIF Reaccreditation* outside of regularly scheduled timeframes. This may include:

- Changes in information security policies.
- Detection of new or emerging threats to systems.

- The discovery that security measures are not operating as effectively as planned.
- The occurrence of a reportable incident (security, privacy or fraud).
- Architectural changes to the system.
- Changes to the system risk profile.
- Changes to an agency's risk appetite, ICT resourcing or senior support.
- Changes to physical locations.
- Changes in ownership.

In addition to meeting ongoing *TDIF* accreditation obligations, an *Accredited Provider* may be directed by the *DTA* to undergo *TDIF Reaccreditation*. This will occur if the *Accredited Provider's Identity System* is changed in a manner that may result in:

- Significant impacts to the *Accredited Provider's* protective security arrangements.
- Serious or repeated privacy breaches (including of *TDIF* requirements or the *Australian Privacy Principles*).
- Material changes to the *Accredited Provider's* risk exposure.
- Material changes to the risk exposure of other *Accredited Providers* in the *Australian Government's identity federation* that materially impact the *Accredited Provider*.
- After a significant change to the *Accredited Provider's Identity System* that significantly impacts on the agreed and implemented system architecture and *System Security Plan*.
- After significant changes to the threats or risk faced by the *Accredited Provider's Identity System*.

In such circumstances, the *DTA* will outline the *TDIF Reaccreditation* requirements to be met in writing. The costs associated with these requirements are to be met by the *Accredited Provider* and will not replace their annual compliance obligations.

To assist in the *TDIF Reaccreditation* of an *Identity System*, *Accredited Providers* are encouraged to reuse as much information from previous *Annual Assessments* as possible.

Accredited Providers that fail to complete *TDIF Reaccreditation* as directed by the *DTA* represents a breach of the *TDIF* and may result in the termination of accreditation.

Appendix A - Compliance ratings

Assessors must use the following compliance ratings to indicate whether the *Accredited Provider's Identity System* continues to meet *TDIF* requirements. Refer to the ISO 31000 or the *Accredited Provider's* own risk management framework for a description of likelihood and consequence ratings.

- **Not Applicable (N/A).** A *TDIF* requirement that does not apply to an *Accredited Provider* as their *Identity System* does not use, rely on or support the *TDIF* requirement (for example, *TDIF* requirements for elliptic curve cryptography will be N/A if the *Identity System* supports other approved cryptographic algorithms instead).
- **Compliant.** The *Accredited Provider* has demonstrated with evidence they comply with a *TDIF* requirement or the intent of a requirement.
- **Critical Non-Compliance.** The *Accredited Provider* fails to meet a *TDIF* requirement which may result in extreme unmitigated risk.
 - A critical non-compliance must be classified as such and must result in a failed *Annual Assessment*.
 - The immediate withdrawal of an existing *TDIF* accreditation by the DTA may occur until such time as the critical non-conformance is sufficiently mitigated.
- **Major Non-Compliance.** The *Accredited Provider* fails to meet a *TDIF* requirement which may result in high unmitigated risk.
 - A major non-compliance must be classified as such and must result in a failed *Annual Assessment*.
 - Escalation of the problem to a critical failure must be imposed if additional failures within this category are detected.
 - If the *Accredited Provider* fails to rectify the compliance problem within a timeframe agreed with the *DTA*, then the status of the problem must be escalated to a critical failure and the conditions of that category are then applied.
- **Partial Non-Compliance.** The *Accredited Provider* fails to meet a *TDIF* requirement which may result in moderate unmitigated risk must be classified as a partial failure.
 - Escalation of the problem to a major failure must be imposed if additional failures within this category are detected.

- If the *Accredited Provider* fails to rectify the compliance problem within a timeframe agreed with the *DTA*, then the status of the problem must be escalated to a major failure and the conditions of that category are then applied.
- **Minor Non-Compliance.** The *Accredited Provider* fails to meet a *TDIF* requirement which may result in low unmitigated risk should be classified as minor failures.
 - Escalation of the problem to a partial failure must be imposed if additional failures within this category are detected.
 - If the *Accredited Provider* fails to rectify the compliance problem within a timeframe agreed with the *DTA*, then the status of the problem must be escalated to a partial failure where the conditions of that category are then applied.
